2nd International Workshop on Global Contributions of Mathematical Sciences: Fractional calculus, theories, and its interdisciplinary applications

About the Workshop:

The International Workshop on Fractional calculus, theories and its interdisciplinary applications is an important event that will bring together experts in the field of fractional calculus to share their knowledge and research findings. It will provide a platform for the discussion of current trends and challenges in the field of fractional calculus and its applications and will help to foster collaborations and networking opportunities among researchers and experts in the field. We hope that this workshop will be a valuable experience for all participants and will contribute to the advancement of research in the field of fractional calculus.

Workshop Objectives:

The workshop is organized to achieve the following cognitive objectives:

- 1.To provide a platform for researchers and experts in the field of fractional calculus to share their knowledge and research findings.
- 2.To foster collaborations and networking opportunities among researchers and experts in the field of fractional calculus
3. To provide a forum for the discussion of current trends and challenges in the field of fractional calculus and its applications
- 4.To provide a platform for the presentation of new research findings and developments in the field of fractional calculus

Speakers:

Prof. Dr. Dumitru Baleanu

Department of Mathematics,
Cankaya University, Ankara, Turkey

Prof. Dr. Abedallah Rababah

Department of Mathematical
Science, College of Science, United
Arab Emirates University

Assist. Prof. Dr. Abdulnasir Isah

Department of Mathematics Education, Tikrit
International University- Erbil, Kurdistan
Region, Iraq

Assist. Prof. Dr. Salisu Ibrahim

Department of Mathematics Education, Tikrit
International University- Erbil, Kurdistan
Region, Iraq
